

Professor Yuanjing Li

Yuanjing Li is a Professor and the Director of the Laboratory of Radiation Physics and Detection in Department of Engineering Physics in Tsinghua University. And also be Vice President of NUCTECH COMPANY LIMITED which is the largest nuclear technology application company in China and one of the prestigious professional companies expertising in security inspection systems in the world.

He was graduated and got his M.S. Degree from Department of Engineering Physics (DEP), Tsinghua University in 1990, majoring in Nuclear Physics. After graduation, He has been dedicated to the research of Radiation Detection, Radiation Imaging and the development of security inspection equipment. Until now He has published over 40 papers, and has over 20 patents.

He has successfully directed some R&D projects in past ten years. such as the development of the detector system for the Container/Vehicle Inspection System, And the detector subsystem of the high energy industrial spiral CT, and the Neutron Explosive Detection Systems Now he was working on the Baggage CT Scanners.
